EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Chuang on October 22, 2007.

The application has been amended as follows:

In the claims:

Claims 11-19 and 28-31 have been cancelled.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a microphone with a low frequency noise shunt. Independent claim 1 identifies the uniquely distinct feature of a first channel formed in a diaphragm support between the outer housing and the support and a second channel formed in a diaphragm spacer between the diaphragm and the spacer wherein the two channels form a shunting channel for low frequency signal components around the diaphragm in combination with all the disclosed limitations of claim 1. Independent claim 20 identifies the uniquely distinct feature of a method of reducing wind noise providing a microphone with a shunting groove formed in a diaphragm support between the outer housing and the support and a shunting slot formed in a diaphragm spacer between the diaphragm and the spacer wherein the two channels form a shunting channel for reducing the effects of wind noise in combination with all the disclosed limitations of claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
